

Jaskaran S. Bhogal (he/him)

Aspiring Software Engineer

(516)-344-9595 | bhogalj03@gmail.com | www.linkedin.com/in/jaskaranbhogal

PROFESSIONAL SUMMARY

Driven third-year computer science student pursuing an internship to apply academic knowledge to real-world settings. A quick study with the ability to rapidly acquire new technical skills. Bringing analytical thinking, passion for technology, and a solutions-oriented mindset. Seeking to gain industry exposure, contribute fresh perspectives to a team, and develop proficiency in building practical applications.

EDUCATION

Farmingdale State College

Bachelor's of Science - BS, Computer Science

Farmingdale, NY

Expected Graduation, May 2027

- GPA: 3.9

EXPERIENCE

Unadat

New York, NY

SWE Intern/Project Management

Feb 2025 - May 2025

- Led cross-functional Agile SCRUM team of 4 engineers and 3 product team members, facilitating sprint planning, daily standups, and retrospective meetings to ensure timely project delivery
- Developed interactive insurance calculator using HTML/CSS, JavaScript, and PHP that generated customized premium coverage options based on customer preferences, driving user engagement
- Implemented goal-oriented user journey with personalized financial guidance features, providing actionable recommendations for customers to reduce insurance costs and improve their financial situation

FIRST TAEHS Robotics

Jamaica, NY

Lead Software Engineer

Sep 2021-June 2023

- Led a team of 10 student engineers across software, mechanical, electrical, and pneumatics disciplines as both Lead Software Engineer and overall Team Lead, overseeing project coordination, task delegation, and team development
- Engineered a pneumatics-driven crane/claw mechanism by programming the robot in Java and LabVIEW, optimizing motor control logic and wiring to achieve a 200% increase in robot movement speed
- Developed a custom timing algorithm for the pneumatics system load-up sequence, reducing battery consumption by 47% and significantly extending operational runtime during competition
- Mentored and coached the incoming student team on robot programming architecture, codebase structure, and best practices to ensure continuity and efficient onboarding for the following season

PROJECTS

Receiptify | Gemini 2.5 Flash API, React.JS, TailwindCSS, Supabase

[GitHub](#) | [Video Demo](#)

- Developed an application allowing the storage and organization of receipts to increase financial wellbeing.
- Uses Gemini API to scan uploaded receipts and automatically sort in sections like Food/Dining, Entertainment, etc.
- Used Supabase for secure Log-in, Sign Up, and authentication.

Doc Discovery | Javascript, App Script, BetterDoctor API

[GitHub](#) | [Video Demo](#)

- Developed a doctor-matching platform using HTML5/CSS3, and JavaScript, strategically utilizing Google Sheets and App Script as a lightweight database to store data fetched from two APIs and presented a curated list of best-fit doctors based on user's desired specialty, insurance, and symptoms; implemented a "Tinder-like" interface for intuitive user interaction, showcasing adaptability and user-focused design in a team-based hackathon project.

CampusDash | JavaScript, Google Firebase, OpenStreetMap API, Leaflet.js

[GitHub](#)

- Engineered a web application that streamlines on-campus food delivery by connecting students with peer dashers.
- Utilized **Google Firebase** for **user authentication** and Firebase Firestore as a database. Implemented a dynamic order tracking system using Firebase Firestore, **ensuring real-time updates** for both customers and dashers.
- Integrated **OpenStreetMap API** and **Leaflet.js** to render dynamic campus maps, and a location-based vendor selection experience. Implemented dynamic UI updates to enhance usability, allowing students to select food vendors visually and track deliveries efficiently.

SKILLS

Programming Languages: C++, Python, Java, JavaScript, HTML/CSS | Research | Data Analysis | Multi-Lingual: English, Punjabi, Hindi, Urdu | Efficient Verbal and Written Communicator | Computer Literacy | Consumer Analysis |
